

Amendment to the Claims:

The listing of claims will replace all prior versions, and listings, of claims in the application:

Listing of Claims:

1. (Currently amended) An eraser for cleaning white boards comprising:
a cube-shaped core having an exterior; and,
~~a plurality of six~~ substantially identically dimensioned and substantially flat
cleaning surfaces ~~that are substantially flat~~ disposed on said the exterior of said the
core.
2. (Original) The eraser of claim 1 further comprising:
a holder having a receiving portion dimensioned to allow selective removal and
reinsertion of said core, wherein said holder exposes at least one cleaning surface of
said core.
3. (Currently amended) The eraser of claim 1 further comprising:
a scraper ~~scrapper~~.
4. (Currently amended) The eraser of claim 1 wherein each cleaning surface is
substantially flat ~~2 further comprising:~~
~~a collector positioned to accept dust removed by said scraper.~~

5. (Currently amended) The eraser of claim 1 wherein the core is selected from the group consisting of foam, cork, felt, wood, plastic, cotton, synthetic fabric and a ~~combination~~ combinations thereof.
6. (Currently amended) The eraser of claim 4 wherein the ~~said~~ core is an open celled foam.
7. (Canceled) The eraser of claim 1 wherein said core is a cube capable of having six cleaning surfaces.
8. (Original) The eraser of claim 1 further comprising:
a holding apparatus.
9. (Currently amended) The eraser of claim 6 further comprising:
a whiteboard conditioning fluid impregnated into the ~~said~~ open celled foam.
10. (Currently amended) An eraser for cleaning white boards comprising:
a holder having a receiving portion;
a removable cube-shaped core having an exterior dimensioned and selectably positionable to fit within the ~~said~~ receiving portion of ~~said~~ the holder; and,
a plurality of six substantially identically dimensioned cleaning surfaces that are substantially flat and disposed on the ~~said~~ exterior of ~~said~~ the core allowing for ~~said~~ the

selectable positioning of ~~said~~ the removable core to provide a clean surface for ink removal.

11. (Original) The eraser of claim 10 further comprising:

a scraper ~~scraper~~.

12. (Canceled) The eraser of claim 11 further comprising:

a collector positioned to accept dust removed by said ~~scraper~~.

13. (Currently amended) The eraser of claim 10 wherein the core is selected from the group consisting of foam, cork, felt, wood, plastic, cotton, synthetic fabric and a ~~combination~~ combinations thereof.

14. (Currently amended) The eraser of claim 10 wherein the ~~said~~ core and the ~~said~~ cleaning surfaces ~~is~~ are provided by a one-piece ~~one-piece~~ foam cube.

15. (Currently amended) The eraser of claim 14 wherein the ~~said~~ foam has an open celled structure.

16. (Original) The eraser of claim 9 further comprising:

a holding apparatus.

~~16~~ 17. (Original) The eraser of claim 16 ~~15~~ wherein the ~~said~~ holding apparatus is felt.

~~47~~ 18. (Currently amended) The eraser of claim 10 further comprising:

an antistatic compound impregnated within the ~~said~~ cleaning surfaces.

~~48~~ 19. (Canceled) A method of erasing whiteboards comprising the steps of:

providing a holder having a receiving portion;

providing a three dimensional polygonal object having a plurality of sides, each side individually capable of cleaning a white board;

selecting a clean surface on said three dimensional polygon to clean a white board;

inserting an opposing face to said clean surface on said polygon into said holder that is dimensioned to accept said polygon while leaving a portion of the adjacent side of said polygon projected beyond said holder perimeter; and,
cleaning ink from whiteboard.

~~49~~ 20. (Canceled) The method of claim 18 further comprising:

wiping said white board with said clean surface until saturated with dry ink;

removing said three dimensional polygonal object from said holder;

reinserting said three dimensional polygonal object having a clean surface exposed from said holder.

~~20~~ 21. (Canceled) The method of claim 19 further comprising:

scrapping the dry ink from sides of said polygonal object with a scrapper within said holder.
